

ECONOSPACE

Nelson's has four different sizes of Econospace to use for your framing projects. Econospace has a peel-and-stick pH-neutral adhesive. The hollow design of Econospace provides stiffness and lightness to help prevent sagging.

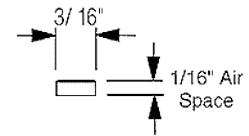

Adhere Econospace to the glass to provide maximum engagement with the glass and the face of the art. Econospace gives you an economical way to provide the airspace necessary between the art and the glass.

S2409 Econospace 062 Clear (1/16" airspace)

S2410 Econospace 062 Black (1/16" airspace)

100' bundle=20 sticks at 5'

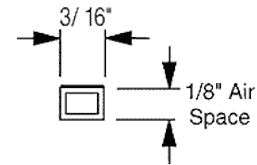

Perfect for glazing photographs or lifting the glass up off a fabric mat or thick fillet.

S2405 Econospace 125 Clear (1/8" airspace)

S2406 Econospace 125 Black (1/8" airspace)

S2413 Econospace 125 White (1/8" airspace)

100' bundle=20 sticks at 5'

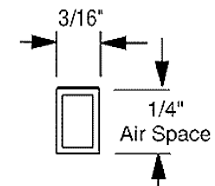

Perfect for floating smaller pieces over a decorative backing or for keeping the glass off important posters or graphics.

S2407 Econospace 250 Clear (1/4" airspace)

S2408 Econospace 250 Black (1/4" airspace)

S2414 Econospace 250 White (1/4" airspace)

60' bundle=12 sticks at 5'

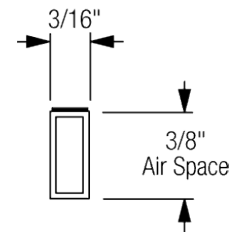

Designed for floating thicker art or objects.

S2411 Econospace 375 Clear (3/8" airspace)

S2412 Econospace 375 Black (3/8" airspace)

S2415 Econospace 375 White (3/8" airspace)

60' bundle=12 sticks at 5'

Designed for floating thicker art or objects.

You can stack various sizes of Econospace to achieve just the airspace you require.
