

# TAPES-STITCHERY™

S1906

The “ultimate” double-sided “archival grade” adhesive tape will adhere fabrics as delicate as silk, linen or velvet without adhesive bleed through or damage to fabric. Safely mount fabric or needlework to art board, foam board or stretcher bars. Included are easy instructions to show you how to eliminate glue, pins and staples.

Roll: 1.5” x 180 feet

*Instructions:*

- 1. Apply Stitchery Tape™ to the edge of the face side of the mounting board with enough tape over the edge to wrap around the backside of the board.*
- 2. Remove the white liner to expose the adhesive.*
- 3. Apply your needlework to the face of the board and stretch the fabric gently to remove wrinkles. Reposition and align as necessary. Press the fabric firmly into the adhesive to secure. Wrap the excess fabric around the backside of the mounting board. Adhesion will increase after 48 hours.*
